

Occupational Medicine

Workplace health solutions that work for you

The health of your employees directly affects the health of your business. That's why **Occupational Medicine** offers a comprehensive program to make healthy happen by preventing problems, managing outcomes, complying with regulations and ensuring the continuing good health and productivity of your employees. The result is innovative solutions for a healthier, safe workforce and increased productivity for your business.

We can be a one-stop shop for all of your occupational medicine needs, including minor and major work injuries, from pre-hiring to retirement. The sites are staffed by occupational medicine specialists whose sole focus is taking care of the needs of employers and employees, unlike programs that operate from an urgent care/ immediate care center or primary care facility and see occupational medicine patients on the side.

Our Coordinated Approach Includes:

- Experienced occupational medicine providers
- Work injury diagnosis, causation and treatment
- Registered nurse case management for work injuries
- Integrated electronic health record
- Availability of our providers to tour your workplace
- Medical examinations
 - Pre-employment, regulatory and surveillance
 - Fit for Duty and Return to Work exams
- Drug and alcohol testing, DOT and non-DOT
- Immunizations
- Work-focused rehabilitation
 - Work-hardening program
 - Pre-placement functional testing
 - Jobsite analysis
 - On-site exercise and educational programs
- Coordinated, after-hours work injury care through our emergency departments and walk-in clinics and drug/alcohol testing
- Accommodations for international travelers including medical exams for immigration

Workers' Compensation

Because our clinics focus on occupational medicine, our providers understand how to determine causation and recognize implications for Workers' Compensation laws. They know how to diagnose and treat occupational injuries and illness, and help employers comply with applicable federal and state laws and regulations.

Our nurse case managers follow work injuries and progress them from onset to case closure.

SOLUTIONS for employers
