

Employer Clinics

Easy-access health care right at work

Employer Clinics offer employees **convenience and continuity of care**. They provide primary and sick care services to employees through on-site or near-site access to a dedicated advanced practice clinician, making treatment convenient. A healthier workforce is more productive and can help reduce health care costs.

Additionally, we can easily integrate other services, such as wellness, the Employee Assistance Program (EAP) and disease management.

Scope of Service

Our health care providers develop strong relationships with your employees and encourage them to take control of their health. Clinic services are offered to patients age 2 and older. Services include:

- **Sick care**
 - Diagnosis and treatment of common health concerns, such as cough, sore throat, headaches and minor rashes
- **Chronic condition management**
 - Management of chronic health concerns, such as diabetes, high blood pressure and high cholesterol
 - Collaboration with the individual's primary care provider
- **Immunizations and screenings**
 - Various immunizations including but not limited to tetanus, shingles and meningitis
 - TB screenings
- **Customized marketing**
 - Co-branded with your company logo
 - Design, printing and shipping fees included
- **Reporting**
 - Provided monthly or quarterly reporting to include utilization and ROI.
 - Includes appointment fill rates, top diagnosis and time-stamp studies
- **Other services**
 - Basic occupational health needs
 - Pre-placement physicals (basic)

Laboratory Service

Employees can enjoy the convenience of using lab services through the Employer Clinic for lab tests ordered by the clinic provider.

Wellness Services

Your Employer Clinic will work collaboratively with your wellness program partners and Employee Assistance Program to provide integrated care to your employees.
