Campus Health

Caring for students, faculty and staff

At Atrium Health, we are experts in the social, emotional and health care needs unique to young adults. Our dedicated team cares for tens of thousands of students at universities across the region.

From primary, acute and chronic disease care to behavioral health and sports medicine, our extensive scope of services is fully customizable. And our integrated, multidisciplinary approach — accessible in person and virtually — is designed to meet the needs of university students and is flexible enough to be expanded to faculty, staff and families, both on and off campus.

Student, faculty and staff health services

- Evaluation and treatment of acute (short-term) illness, injury and infection
- Point-of-care lab work (COVID-19, flu, urinalysis, pregnancy, glucose)
- Allergy immunotherapy and other injection services
- Vaccinations
- Annual wellness exams/student-athlete physicals
- Collaboration with students' primary care providers for chronic conditions or other health needs
- Gynecological services and sexual health
- On-site medication dispensing delivered by the clinic provider who prescribes the medication
- Referrals and access to specialists, in person and virtually, along with local health care referral networks to navigate students or staff members to the right care at the right time, if needed
- Special focus on health literacy and teaching young adults how to understand, advocate and navigate their health and health care

Additional Services for Faculty and Staff

- Chronic disease management
- Wellness and lifestyle coaching and other wellness-related services
- Travel vaccinations
- Health risk assessments and screenings
- Occupational medicine
- Employee Assistance Program (EAP)
- On-campus specialty services billed to insurance including IUD and other semi-permanent birth control, in-person and virtual physical therapy and more

Dedicated Behavioral Health Services

- Licensed behavioral health professionals
- On-site care as well as virtual care by video or phone
- 24/7 behavioral health crisis intervention call center for students to use anytime
- Psychopharmacology consultations for clinic primary care provider(s)
- Mental Health First Aid training
