Occupational Medicine

Our occupational medicine services are designed to expedite onboarding, help employees get back to work faster and keep them safe and healthy on the job. Whether it's work-related injury care or pre-employment screenings and physicals, our team regularly evaluates ways to improve efficiency of and access to our occupational medicine programs and services.

Services

- Work injury management (initial injury, re-evaluation and return to work)
- DOT physicals
- Annual physicals
- Pre-employment and surveillance fitness-for-duty physicals
- Breath alcohol screenings
- Drug screening (urine, saliva and hair)
- OSHA respirator clearances, respirator fit testing and pulmonary function testing
- Hearing screening (tinnitus screening)
- Vision screening (20/20 and colorblindness screening)
- Vaccinations (hepatitis B, flu, Tdap and rabies)
- Education on first aid/CPR, bloodborne pathogens and other topics
- Virtual after-hours care
- Industrial athletic training

Easy and Accessible Care

Several care delivery models are available and can be customized to fit employer needs:

- On-site clinics
- Near-site clinics
- On-site nurses
- On-site events
