

IRA Qualified Charitable Distribution

If you are age 70½ or older, a Qualified Charitable Distribution (QCD) from your IRA can be a tax-savvy way to make a gift to support your favorite Aurora health Care hospital or program. You can make a QCD through a direct transfer from your IRA to Aurora Health Care Foundation. This kind of gift will count as part of your Required Minimum Distribution (RMD). Once you have instructed your IRA account administrator to make the transfer, please let us know what Aurora hospital or program you choose to support.

Benefits of a Qualified Charitable Distribution

- It allows you to support your favorite Aurora hospital or program.
- The distribution from your IRA does not count as taxable income.
- You receive tax benefits even if you don't itemize.
- You may use it to fulfill a pledge.

Special Considerations when arranging a Qualified Charitable Distribution

- The distribution must come directly from your IRA account to Aurora Health Care Foundation.
- The maximum IRA Charitable Rollover amount is \$108,000 (in 2025, adjusted annually for inflation) per person.
- We can assist you with details on directing your IRA account administrator to make this kind of distribution to Aurora Health Care Foundation.

Situations to Avoid

- DO NOT take the funds out of your IRA and then write a check to us or your Aurora hospital/program. This will nullify the tax benefits of the Qualified Charitable Distribution.
- Rollover funds cannot be used to receive any benefit, such as gala tickets, in exchange for the gift.
