

ROCKEFELLER'S

2nd Annual Pancreatic Cancer Fundraiser

Rockefeller's is hosting our annual event to raise money and awareness for pancreatic cancer. Pancreatic cancer is currently the third leading cause of cancer deaths in the United States and has the highest mortality rate of all major cancers. This year's proceeds will support pancreatic cancer research at Advocate Christ Medical Center, offering additional detection, prevention, and treatment trials for patients. A portion of the proceeds will also support educational events for healthcare professionals and our local community. We invite you to an evening of cocktails, dinner, dancing, and raffles for a great cause that also allows us to give back to our community and raise awareness of this disease.
